

PRODUCT INTRODUCTION

CLEANER

LUBRICANT • MOLD RELEASE AGENT

ANTIRUST AGENT • COATING AGENT

METAL SURFACE TREATMENT

WELDING SUPPLIES(**SPAZERO**®)

PCB INSULATING COATING AGENT

TEXTILE ARTICLES

NON-DESTRUCTIVE TESTING(NDT) CHEMICALS

ANTISTATIC AGENTS

SPECIAL INDUSTRIAL ARTICLES

CHEMICALS FOR A POWER PLANT

RT-1000

Rust Zero RT-1000 (RUST CONVERTER/ High-Molecular Rust Converter)

Packaging Unit : • 500g Spray
• 18ℓ/ PVC

LIST

Features

- One-solution type special macromolecular compound.
- This product converts existing rusts into stable iron-adhered material(black membrane) and absorbs free oxide
- present in the steel surface to prevent steel corrosion.
- This is a perfect low-pollution rust converting rust-proofing paint.
- Semi-permanent rustproofing
- Perfect rust conversion
- Direct painting on rust not requiring pretreatment
- Easy-to-use

Uses

- Maintenance of various steel matters.
- Rustproofing or maintenance of steel tanks used in the factory related with medicine, food, textiles and chemicals.
- Rustproofing or maintenance of piping or inner structures.
- For painting in the places where oil paints can not be used due to the danger of fire or explosion.
- For painting in the places where oil paints can not be used due to the moisture remained in the adhered agent in the harbor or dam.
- Rustproofing painting or maintenance of vessel-related steel structure, steel structure of construction material, steel structure of foundry.

SR-100

NABAKEM SR-100 (Metal Surface Cleaner)

- Packaging Unit : • Liquid 1 kg/PVC Bottle
• Liquid 20 kg/PVC Bottle

LIST

Features

- Excellent cleaning of metal scale
- Mild odor
- Soluble.
- Safe against fire
- Without toxicity
- Excellent biodegradability
- Excellent solubility with water
- Excellent rust removal

Uses

- Remval of the scales on steel, copper, brass and other metal surfaces
(Removal of calcium carbonate scale, copper oxide, iron oxide and decoloration)
- Grease-removal cleaning of oils and dirty filth

How to Use

- Use the undiluted solution as it is, or dilute it with water.
- Deposit the product or apply it by spray or brush. Rub the applied area to remove scale after 30 seconds to 2 minutes.
- Rinse after scale removal.
- Remove wetness and apply anti-rust agent(NABAKEM L-840) to prevent rust.

ZINCOT N-70

INORGANIC INSTANT COLD GALVANIZE

Packaging Unit : Aerosol 420ml/can, 20cans/Box

LIST

Features

ZINCOT N-70 forms a heatresistant, Zinc-rich and inorganic silicate coating to protect any metal surface from rust and corrosion. Withstands temperatures to 400°C and 500°C dry heat and water temperatures to boiling point. Touch dries within 30 minutes. Several thin coats prevent rust in the most severe conditions. Although not a paint, it makes a first-class primer and touch-up.

Uses

- Industrial maintenance equip
- Construction machinery and equip
- Car and truck bodies.
- Pipes and water tanks
- Radio and T.V
- Outdoor furniture
- Tools and weldments
- Farm machinery and iron fencing
- Heating/Air conditioning equip
- Springs and coil
- Mufflers and manifolds
- Others.

Cautions

- Do not use it toward fire.
- Do not use near heater or stove.
- Do not use in the room using fire.
- Do not keep it in the place above 40°C.
- Provide ventilation to use it in the closed room.
- Do not throw it away into fire.
- Punch the can to throw it away.
- Do not keep it in the closed place.
- Spraying may not work well below 5°C.

ZINCOT N-50

INSTANT COLD GALVANIZE

Packaging Unit : Aerosol 420ml/can, 20cans/Box

LIST

Features

- Excellent antirust effects

ZINCOT N-50 is a product using high-purity zinc grey particles based on zinc galvanizing, and provides permanent antirust effects by electrochemical action between zinc grey and metal.

- Excellent adhesiveness

High-adhesion special binder enduring any shock and bend is used.

- Excellent heat resistance and chemical-resistance

Uses

- Vessel : Bottom, ventilation duct, heat exchanger, water tank, drain pump, marine facilities of vessels
- Bridge : Rustproofing of pier, wire rope, foot, bolt, nut and welded part
- Vehicles : Muffler, body, underbody, fuel tank inlet, welded area of heavy equipment, parking facilities
- Generation and electric system : Transmission tower, broadcasting facility, antenna, steel tower, street light
- Construction : Pipes installed underground, elbow, steel structure, fence
- Others
 1. Pipeline of refinery plant
 2. Piping and opening tank of freezer and airconditioner manufacturer
 3. Rustproofing of machinery and equipment of chemical plant
 4. Outdoor steel structures
 5. Agricultural equipment and snowplow
 6. Welded portion of guardrails in expressway
 7. Rustproofing of water discharge channel system of irrigation channel

Cautions

⊙ Aerosol

- Keep it away from your children.

- This flammable product uses high-pressure gas.

Comply with following cautions.

1. Do not use it toward fire.
2. Do not use near heater or stove.
3. Do not use in the room using fire.
4. Do not keep it in the place above 40°C.
5. Provide ventilation to use it in the closed room.
6. Do not throw it away into fire.
7. Punch the can to throw it away.
8. Do not keep it in the closed place.
9. Spraying may not work well below 5°C.

ZINCOT N-50

INSTANT COLD GALVANIZE

Packaging Unit : • Liquid 1kg/Pail
• Liquid 4kg/Pail
